# SuryaRay Lamps

When nature shines a light...

CATALOG 2026

Unique handcrafted ambient light sculptures made of wild wood and rice paper.

## Light sculptures made with nature

Handcrafted ambient light sculptures Suryaray Lamps are created respectfully in collaboration with nature from abandoned or drifted pieces of wood, which have already served their life in the form of mighty trees.

In a symbolic ritual of transmutation, they get a new life and a new purpose - to illuminate the true path through their ancient wisdom and warm intimate light to anyone who accepts them into their space.

The project was born out of a simple question: How can I give forgotten wood a new purpose - and allow its spirit to shine again?

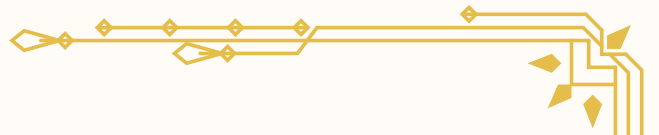

I follow the raw natural flow of every piece of wood - I work with them to create lamps that really embody the wisdom of once mighty trees.

A vibrant cocoon of rice paper adds a touch of elegance and passion. This creates a gentle embrace of light that turns the room into a sacred space and a house into a temple. It is as if looking into the last ray of sunset or capturing an unforgettable moment of crackling fireplace.

Suryaray lamps are more than decor - they are a reflection of diversity and transformation. A reminder of our deep connection with nature and the magic of life. Just like each of us and each tree has its own way, so does every lamp shine differently and is completely unique. Not only that they were initially formed by wild forces of nature, they also stimulate sustainability and awareness of the abundance that nature offers. In a world that often rushes past beauty, these lamps invite us to slow down - and reconnect.

from 288€

## Standy - table lamp on a stand

Made of smaller pieces of wood rising on a stand of various reclaimed woods, currently olive wood. The stand also serves as a little bowl to store your belongings at night. They offer gentle readable lighting for your precious evenings and an inspiring magical atmosphere to uplift your creativity or give you a relaxing inward time.

## Standy - table lamp on a stand

from 199€

## Shady - wall mounted lamp shade

Handcrafted from a small piece of wood and a bigger shade of rice paper, Lamp Shades are designed to be hanged on the wall or ceiling to cover wall lights in your home. They transform your space into a temple, while bringing elegance of natural shapes. As if you were walking through a mystical hallway of the journey of life.

SuryaRay

from 399€

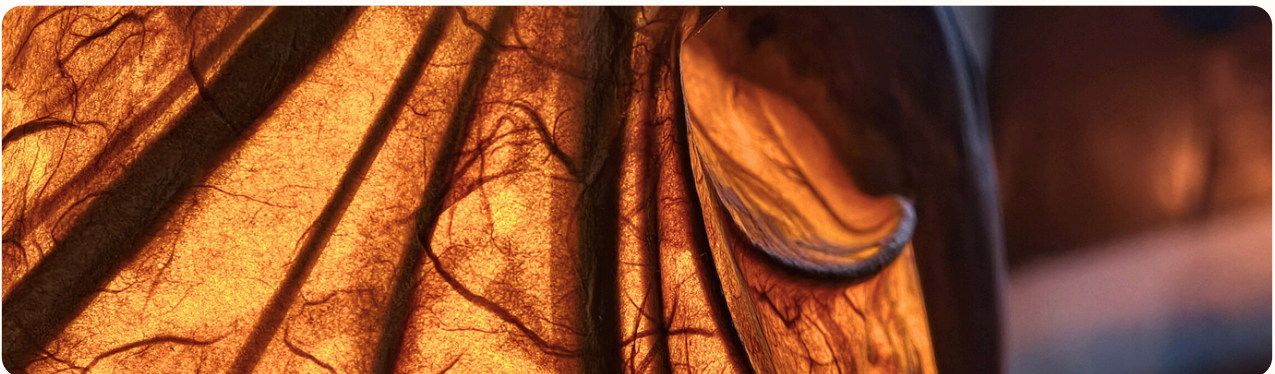

## Pillar - higher floor lamp

Floor lamps emerge as the focal point of your home with their shape rising high and illuminating more space with magical light. They are made usually by merging two pieces of wood into one self standing specie of SuryaRay Lamps. Textile cable spiralling down like a vine on a tree brings fluidity and elegance to the design.

## Pillar - higher floor lamp

from 333€

## Zenith - chandelier / ceiling lamp shade

Zenith is a ceiling light shade or a hanging chandelier lamp that is placed on a ceiling to be seen at the moment you step into the space. It is a central light that inspires with various natural shapes.

from 222€

## Spark - mini lamp

Mini lamps are made for those who don't have enough space but still want some nature's intimacy shining upon them. They are also perfect for camper vans or tiny house. Made from a composite of tiny wooden pieces attached to an olive wood stand, which can also be mounted on the wall.

from 444€

## Etheria - custom light sculpture

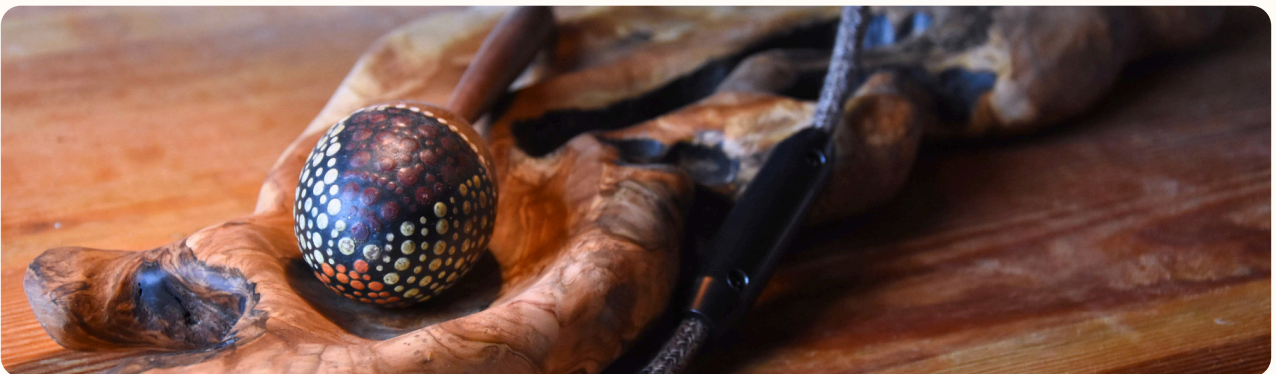

Each custom lamp is crafted from a special piece of wood and made in the size that best suits your space. With careful attention to your wishes, the lamp is designed to bring the atmosphere you envision into your home. The price depends on the time invested in each creation.

## Unique & customizable design

Each SuryaRay Lamp is completely unique expression of nature, so the result cannot be predicted. It is a journey of accepting the unknown and embracing diversity. Trusting the flow and realising that uniqueness is what make this place so magical. Curiosity of a child awakened.

Upon request you can also enter co-creation by choosing your piece of wood from my offered collection or even bring your own precious piece. Bright beige or intimate orange rice paper cocoon. Various patterns of high quality textile cables made in Italy. The choice is yours!

In the past few years I have been developing a way to keep seamlessly connected rice paper cocoon and an ability to change the light bulb. So every lamp is charged with a special small LED light bulb and a quick way of changing it - simply by pulling the cable out of the wood.

## Complete space illumination

I am eager to co-create your home, retreat centre, apartment or other special spaces from concept to final installation, carefully and intentionally crafting the ambience. We meet at your desired place and embark on a journey of illumination. There is also an option to implement LED strip instead of light bulb for more intricate flow of light.

Since there will be multiple SuryaRay Lamps created, I will make a respectful personalized offer - including cost of materials, delivery and installation.

## Make it truly personal

SuryaRay Lamps are completely unique and they can adapt to your needs perfectly. For each pre-ordered lamp, I connect to the energy of the future owner and charge it with the intention of illuminating his/her unique path.

**For those who want it even more personalized, I am offering some extra special add-ons.**

### **SPECIAL TEXTILE CABLE PATTERN (+22€)**

If you want the cable to flow down from the lamp in your style and support you and the space even more, I am offering a **wide selection of high-quality textile cables made in Italy**. Upon request, I will send you the list of all available patterns to choose from. Also I can create **longer cable if that fits your needs better** (initially smaller table lamps have 1,5m of cable and bigger floor lamps have 2,5m).

### **PERSONALISED ENGRAVING OF A SYMBOL OR A PHRASE (+44€)**

The lamps are not only decoration, but objects of intention, like a talisman or a relic. Upon request I can engrave a special symbol or a phrase into the wood, so they support your personal path even more.

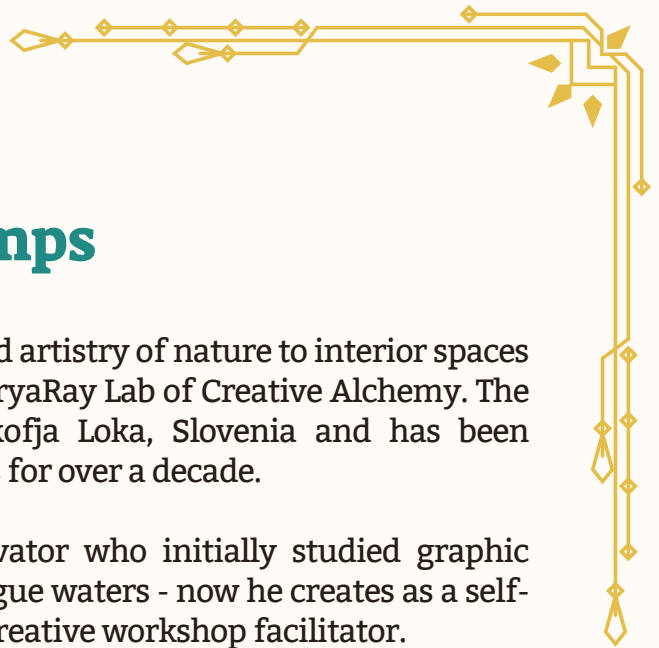

### **ENGRAVING OF A MAGICAL SIGIL (+88€)**

Used for centuries within magical traditions, **sigils are powerful personalized symbols that encode a specific intention** (or desired outcome) into a simple visual form, which trespasses the barrier of the rational mind and embeds into the subconscious through your focused presence.

**How does it work?** You send me your preferred intention in a sentence form and I create a special unique symbol that supports it. Then I engrave it into the lamp, so any time you turn it on and focus on the sigil while entering a meditation or any other trance state, you charge the intention hidden within it.

### **CHARGING THE LAMP WITH A PERSONALISED CRYSTAL (+88€)**

Each lamp can be **embedded with a carefully chosen crystal**, selected to support a specific intention or area of life. Crystals are often valued for their stable, ordered structure and their ability to hold symbolic meaning, making them useful as anchors for focus and intention. By integrating a personalized crystal into the design, the **lamp becomes even more meaningful object** that supports clarity, direction, and a steady connection to what you want to cultivate.

## Creator behind the lamps

Unique lamps that bring a fairy tale and wild artistry of nature to interior spaces are created under a diverse brand called SuryaRay Lab of Creative Alchemy. The founder Klemen Orešnik comes from Škofja Loka, Slovenia and has been exploring creative potential in various fields for over a decade.

He is a multidisciplinary artist and innovator who initially studied graphic design and later took a swim into the analogue waters - now he creates as a self-thought painter, craftsman, musician and creative workshop facilitator.

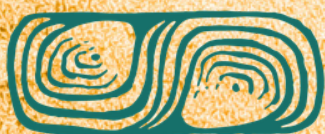

The universal purpose of the brand is to encourage appreciation for nature and magnificent complexity of the universe and our existence. To revive creative expression as something inherent in every human and bring curiosity and enthusiasm for the magic we live in. To every heart.

Through transformation of intangible spheres of life into tangible objects that remind us of the great mystery.
